

At Nuri Steakhouse, we believe that a thoughtfully curated wine list can elevate every dining experience. Nuri, meaning "whole world" in Korean, reflects our mission. With the expertise of Master Sommelier Barbara Werley, we've explored the far reaches of the globe to source wines of exceptional quality, rarity, and value. Each selection has been carefully chosen to ensure it complements our diverse menu and enhances your culinary journey. We make every effort to support family owned wineries, and those who are sustainable, organic, or in some way friendly to the earth. Our wine team is passionate and eager to share their knowledge, so we encourage you to ask questions of our team and explore the world of wine with us.

the VDP is an organization of German winemakers that got together in order to create some sort of "Grand Cru" system. GG Stands for Grosses Gewächs which are the "Best Vineyard Sites" as decided upon as a group. So the VDP GG is a recognition of distinction by the group as a whole instead of the individual producer.

Bond is unique for its "Burgundian" focus on single-vineyard expressions, whereas Harlan Estate is modeled after a "Bordeaux" first-growth flagship blend. Each Bond bottling is a 100% Cabernet Sauvignon "study" of one specific microclimate. In contrast, Harlan Estate is a complex blend of various parcels from a single large estate.

The Mascot is a unique blend from vines of three legendary "cult" estates: Harlan Estate, Bond, and Promontory. These vines are farmed to the same rigorous standards as the flagship labels and Because it blends fruit from multiple hillside properties rather than a single site, it acts as a "lens" into the family's overall farming philosophy and the character of the Napa Valley as a whole.

Promontory sits on a rare metamorphic rock formation (schist, shale, and slate). These soils contribute a "cool" mineral edge and chalky tannins creating a wine with a rugged, mineral-driven style influenced by a rare geologic intersection of two distinct fault lines that have pushed up ancient materials from deep within the Earth's strata.
